##### *Senior Cultivator*

Efficiently managed a large-scale commercial cannabis production facility with over 2000 plants. Responsible for all aspects of grow room operations including construction, installation, climate control (temp, humidity, etc), and preventative maintenance to eliminate all types of mold, powdery mildew, and pests (spider mites, root aphids, thrips, gnats, etc). Hired, trained, mentored, and supervised a team of 8 productive and motivated employees. Maintained an inventory of materials and efficiently administered budgets in order to cut costs. Oversaw all phases of production including cloning, propagation, watering, transplanting, fertilizing, pruning, flowering, harvesting, trimming, and curing. Managed the company's online social media pages and supported branding and marketing initiatives for concentrates, flowers, and edible products. Maintained a thorough knowledge and understanding of state laws and regulations pertaining to the production and distribution of medical and recreational marijuana. Consistently enhanced growing skills and increased crop production and yields. Gained an intimate knowledge of a variety of different cannabis genetics and phenotypes, including: Headband, Gorilla Glue #4, White Buffalo OG, Lemonade Haze, Strawberry Banana, Gelato, and God's Gift.
